Instructor Comments

Describe the one best thing about the recitation section or the instructor that was effective in helping you learn. If you could suggest one thing to improve the section, what would it be?

- ILY Caroline!!! Caroline, thank you so much for your help this semester! I don't know what your long-term goals are, but you are already a killer teacher and you'd be an excellent full term professor. I don't know how you were able to be so competent and caring while having so much on your plate research and class wise, but you seriously pulled it off. You really helped me understand the material before the first exam, and I loved how you expected us to participate -- I'm often afraid of being wrong, but you encouraged me to try no matter what. Also, I really appreciate you noticing that my groupmates for the EDM project often weren't present or contributing actively, which made it difficult for me to the project. It's great to be seen like that, and for you to take other factors into account. Thanks for everything!!! You are excellent.
- Jeopardy games before the exams were extremely helpful
- Caroline genuinely loves what she teaches and it shows in recitation, which I appreciate.
- caroline really helped a lot throughout the semester, she was very available for questions over email or meeting in person
- Go over more course material
- Her powerpoints and jeopardy were immensely helpful. She always seemed excited and willing to engage with the students. She makes herself very accessible and wants you to learn and retain the information. No suggestions. She's awesome!
- One of the Ta's that actually care about how her students are doing. Friendly, excited and happy, brightens up our morning recitation and makes me enjoy what we do immensely.
- Caroline was very good at explaining difficult concepts and I enjoyed her enthusiasm in facilitating the recitation. I do wish that the assignments (specifically the EDM) were more effectively outlined because I found myself struggling to understand what exactly was expected of me.
- She did not hand answers to us, but instead forced us to find the answers on our own.
- went over confusing topics
- She is very helpful and nice.
- Very detail explanation
- She was very helpful and informative and gave us time and space to ask questions. I would focus less time on the group project, and more time on reviewing the class.
- Everything was helpful.
- Good
- Your slides that you made were greatly appreciated. They really helped me understand the concepts and I appreciated how much you genuinely cared about us and our understanding of the concepts. You were an awesome TA and I've never felt more supported by a TA. I admire you a lot and I hope I can be like you when I'm in grad school. Thank you for an awesome semester and good luck with your experiment!

- One thing that was helpful was reviewing the QDAFI every week. One thing to improve the section would be to get more instruction on the EDM project.
- Love Caroline! She was really informed about all the topics we were doing in class and could answer any clarifying questions we had. Also, she's really passionate about the course and we could see that which is always nice! Solid TA, I hope she continues doing it :)
- Caroline is very kind and very accessible. Her recitation slides help me a lot with course reviewing.
